Availability: weekday afternoons, 20–25 h/week · UPC internship agreement
Year: 4th · Expected graduation: 2028

PROFILE

4th-year Computer Engineering student (Software Engineering track, UPC-FIB), with Honours (Matrícula d'Honor) in Introduction to Software Engineering. I have worked in teams on university projects using Git, pull requests and sprints, with a contribution focused mainly on frontend and user interfaces. I am looking for a technical internship (development, QA, IT support, systems or technology consulting) in Barcelona city, Badalona or remotely, in the afternoon and under a UPC internship agreement.

EDUCATION

BSc Computer Engineering — Software Engineering track, UPC-FIB · 2023–present

- Honours (Matrícula d'Honor) in Introduction to Software Engineering.
- Relevant coursework: Databases, Software Engineering, Data Structures, Operating Systems, Networks.

Batxillerat (high school), IES Isaac Albéniz (Badalona) · 2021–2023 · GPA 8.24/10

UNIVERSITY PROJECTS

Caliu — Mobile app for the Cultura't group (PES, team project, UPC-FIB) · Fall 2026

Flutter · Dart · Git/GitHub · Scrum

- Team project (7 people): cultural events app based on open data from the Agenda Cultural, with a REST API and MongoDB.
- Contribution focused mainly on the Flutter frontend (application interface), working in sprints with pull requests and code review.
- Team repository: github.com/pes2627q1-11-gei-upc/Caliu-FrontEnd

Hidato — Java puzzle (PROP, team project, UPC-FIB) · 2026

- Team project (4 people). Contribution focused mainly on the user interface in Java.
